Mystical Insights: Knowing the Unknown Dr. Paul Leon Masters

Is there a Universal Consciousness in Whose Consciousness we move, live, and have our being?

The exploration of consciousness is the final frontier in the exploration of life and the mysteries of existence - its origin, its on-going presence - as well as for answering questions that intellectual analysis cannot answer because it is based on the speculations of the five senses.

Consider then that within every human being there are simultaneous states of existence that are active - pre-dating human life, during human life, and beyond human life.

Participate in this world of illusions but always retain the Light of Universal Awareness, wherever your soul's purpose path may lead you.
