Principles of Seed Science and Technology

Lawrence O. Copeland, Miller McDonald

Principles of Seed Science and Technology Lawrence O. Copeland, Miller McDonald

This Third Edition of Principles of Seed Science and Technology, like the first two editions, is written for the advanced undergraduate student or lay person who desires an introduction to the science and technology of seeds. The first eight chapters present the seed as a biological system and cover its origin, development, composition, function (and sometimes nonfunction), performance and ultimate deterioration. The last seven chapters present the fundamentals of how seeds are produced, conditioned, evaluated and distributed in our modern agricultural society. A new chapter on seed enhancement has been added to reflect the significant advancements made in the last 10 years on new physiological and molecular biology techniques to further enhance seed performance. Because of the fundamental importance of seeds to both agriculture and to all of society, we have taken great care to present the science and technology of seeds with the respect and feeling this study deserves. We hope that this feeling will be communicated to our readers. Furthermore, we have attempted to present information in a straight-forward, easy-to-read manner that will be easily understood by students and lay persons alike. Special care has been taken to address both current state-of-the-art as well as future trends in seed technology. We believe this Third Edition represents a new level in presenting information that appeals to advanced undergraduate students as well as to those desiring more fundamental information on seed form and function. At the same time, it continues to have the strengths of the first two editions, in its readability as well as its comprehensive coverage of the broader area of seed science and technology.

From reader reviews:

Louis Clark:

Do you have favorite book? For those who have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each guide has different aim as well as goal; it means that publication has different type. Some people experience enjoy to spend their time for you to read a book. They may be reading whatever they consider because their hobby is usually reading a book. How about the person who don't like studying a book? Sometime, person feel need book once they found difficult problem or maybe exercise. Well, probably you'll have this Principles of Seed Science and Technology.

Amanda Grant:

This Principles of Seed Science and Technology book is simply not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book is definitely information inside this reserve incredible fresh, you will get info which is getting deeper anyone read a lot of information you will get. This specific Principles of Seed Science and Technology without we realize teach the one who looking at it become critical in thinking and analyzing. Don't end up being worry Principles of Seed Science and Technology can bring if you are and not make your tote space or bookshelves' turn out to be full because you can have it in the lovely laptop even mobile phone. This Principles of Seed Science and Technology having fine arrangement in word along with layout, so you will not feel uninterested in reading.

Regina Wingler:

Playing with family within a park, coming to see the ocean world or hanging out with good friends is thing that usually you may have done when you have spare time, in that case why you don't try point that really opposite from that. One particular activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Principles of Seed Science and Technology, you may enjoy both. It is very good combination right, you still want to miss it? What kind of hangout type is it? Oh can occur its mind hangout people. What? Still don't understand it, oh come on its called reading friends.

Christopher Rangel:

As we know that book is vital thing to add our know-how for everything. By a reserve we can know everything we want. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year had been exactly added. This publication Principles of Seed Science and Technology was filled in relation to science. Spend your free time to add your knowledge about your scientific disciplines competence. Some people has various feel when they reading a new book. If you know how big good thing about a book, you can really feel enjoy to read a e-book. In the modern era like right now, many ways to get book you wanted.
