*Ukraine and Europe* challenges the popular perception of Ukraine as a country torn between Europe and the east. Twenty-two scholars from Europe, North America, and Australia explore the complexities of Ukraine's relationship with Europe and its role the continent's historical and cultural development.

Encompassing literary studies, history, linguistics, and art history, the essays in this volume illuminate the interethnic, interlingual, intercultural, and international relationships that Ukraine has participated in. The volume is divided chronologically into three parts: the early modern era, the 19<sup>th</sup> and 20<sup>th</sup> century, and the Soviet/post-Soviet period. *Ukraine in Europe* offers new and innovative interpretations of historical and cultural moments while establishing a historical perspective for the pro-European sentiments that have arisen in Ukraine following the Euromaidan protests.
