In an organic garden, plants in optimum health thrive abundantly, have harvests with amazing taste, and have the ability to fight off plant predators. When they don't there's often something lacking in their proper nutrition, they are missing beneficial microorganism companions, or they are short of the energy needed to reach their full nutrient-dense potential. The solution is to "start with the soil." But healthy soil doesn't happen just by composting, fertilizing or companion planting alone. The solution is in Building Soils Naturally, where gardeners will find a hands-on plan of how to create productive, living soil by using a practical holistic approach - crafted right in your garden.

In Building Soils Naturally, organic gardeners will find a hands-on plan of how to create productive, living soil by using a practical holistic approach - crafted right in your garden.
