Read about justice in everyday practice; austerity across the world and how it affects people's lives; the impact of neoliberalism on health systems; eco-social occupational therapy; evaluation in community-based practice and many more in the new edition of Occupational Therapies without Borders, edited by Dikaios Sakellariou and Nick Pollard! A thought-provoking book, with 67 chapters and 150 authors from all over the world writing about the social and political aspects of occupation. This book aims to inspire occupational therapy students and practitioners to include transformational elements into their practice.

The new edition of this landmark international work builds on the previous two volumes, offering a window onto occupational therapy practice, theory and ideas in different cultures and geographies. It emphasizes the importance of critically deconstructing and engaging with the broader context of occupation, particularly around how occupational injustices are shaped through political, economic and historical factors.
