## **Winner's File: The Logic Behind Successful Handicapping (Winner's Circle Book) Henry Kuck**

"There is a logic behind the craft of successful handicapping anyone can learn. Winner's File comprehensively demonstrates that logic." - Henry Kuck Today's handicapper must navigate through a blizzard of information in order to beat the game. Yet there are bettors who do it every day. What separates these clear-eyed winners from the rest? They have mastered two important skills: first, knowing how to uncover the information that matters in the past performances; and then, knowing how to spot the acceptable odds on possible plays. These skills together are indispensable for successful play. They can be learned, and Winner's File shows how. Throughout the book, handicapping decisions are discussed in relation to betting odds. Sometimes the leading contenders stand out clearly and the offered odds will determine what course of action to take. Other races are more confusing. In these cases, Kuck teaches which races are worth the risk and which ones should be avoided at all costs. Readers will understand how and why to choose among the possible bets-all without the use of complicated formulas and computers. Winner's File is complete and self-contained. It has all of the information a handicapper needs to start winning. With increased skill and the broader understanding it reflects, readers will greatly increase their pleasure and profit. Henry Kuck is a professional handicapper and the author of thousands of articles and two books on handicapping. He is also the creator of the Henry Kuck ratings, speed pace and class figures for all major race tracks in North America. The unique accuracy of his figures has been acclaimed for nearly twenty years by owners, trainers, agents, professional handicappers, and plain lovers of the game.
