Humanity's attempt to terraform and colonize Mars goes horribly wrong and only bioengineered and expendable human soldiers stand any chance against the monstrous abominations that threaten Earth itself!

In the late 26th century, overpopulation on Earth is reaching the breaking point, and humanity must find new frontiers. The terraforming of Mars has taken centuries but is now complete. The colonization of Mars by humanity is an epoch-making event, but an unintended side effect of the terraforming process unleashes a horror no one could ever have imagined...

Akari and Eva have gathered a handful of survivors to stand against the swarm of approaching Terraformars and the *Kuzuryu*'s attacks from the sky! The crew of the shattered *Annex* expedition have only one chance to reach the rendezvous point on the coast and a potential rescue, but who is there waiting to pick them up?
