## **Wild Scenes in South America: Or Life in the Llanos of Venezuela (Classic Reprint)** Ramón Páez

It was my lot several years ago I need not state how many to be brought forth into this world amid the wild scenes which I propose to describe. Later in life I was fortunate enough to be sent by my parents to England, for the purpose of finishing my education under the tuition of the learned fathers at the College of Stonyhurst. While there, I had the pleasure of making the acquaintance of the inimitable author of Wanderings in South America, Charles Waterton, Esq., who years before had also been an inmate of that celebrated institution, and whose book became at once my favorite study, on account of the graphic descriptions it contains of animals and objects with which I was already familiar. The works of the distinguished traveller, Baron von Humboldt, who first made those regions known to the civilized world, next afforded me an endless source of scientific enjoyment, developing in me an early taste for the natural history and physical wonders of my native land.
