Environmental Effects of Offshore Oil Production: The Buccaneer Gas and Oil Field Study (Marine Science)

Environmental Effects of Offshore Oil Production: The Buccaneer Gas and Oil Field Study (Marine Science)

The Buccaneer Gas and Oil Field Study has been the most comprehensive research project to date concerned with assessing the ecological effects of offshore production activities. It took nearly five years to complete and involved almost 30 individual research groups. All of the raw data have been archived with NOAA's Environmental Data and Information Services, and detailed technical reports have been deposited with the National Technical Information Service so the interested investigator should be able to gain access to them. However, we felt that it would be desirable to present a distillation of our more significant findings in a form that was more readily available to the scientific and lay community. Thus, we conducted a symposium on the study during EXPOCHEM '80 at the Astrohall, Houston, Texas during October, 1980. This volume comprises the proceedings of that symposium. All but two of the papers presented are included in this book. Manuscripts were not received from Dr. D. A. Wiesenburg (Texas A&M University: Volatile Hydrocarbons) or Dr. J. Tillery (Southwest Research Institute: Trace Metals), but these topics are adequately covered by other authors. An introductory chapter was added to place the study in its proper perspective and to provide some background material on the Buccaneer Field, a brief chapter on biocides was inserted since this topic generated much discussion at the symposium, and a bibliography is provided to direct the interested reader to sources of additional information on the Study.

From reader reviews:

Joann Hamilton:

Information is provisions for people to get better life, information today can get by anyone at everywhere. The information can be a knowledge or any news even a problem. What people must be consider any time those information which is inside the former life are challenging to be find than now's taking seriously which one would work to believe or which one typically the resource are convinced. If you obtain the unstable resource then you get it as your main information there will be huge disadvantage for you. All of those possibilities will not happen throughout you if you take Environmental Effects of Offshore Oil Production: The Buccaneer Gas and Oil Field Study (Marine Science) as your daily resource information.

Linda Manning:

The e-book with title Environmental Effects of Offshore Oil Production: The Buccaneer Gas and Oil Field Study (Marine Science) possesses a lot of information that you can find out it. You can get a lot of advantage after read this book. This kind of book exist new knowledge the information that exist in this reserve represented the condition of the world at this point. That is important to yo7u to learn how the improvement of the world. This book will bring you within new era of the internationalization. You can read the e-book with your smart phone, so you can read the idea anywhere you want.

Ross Adams:

The book untitled Environmental Effects of Offshore Oil Production: The Buccaneer Gas and Oil Field Study (Marine Science) contain a lot of information on it. The writer explains your ex idea with easy method. The language is very straightforward all the people, so do not necessarily worry, you can easy to read it. The book was compiled by famous author. The author brings you in the new period of literary works. It is possible to read this book because you can read more your smart phone, or program, so you can read the book within anywhere and anytime. If you want to buy the e-book, you can wide open their official web-site in addition to order it. Have a nice study.

Ann Fortune:

Is it an individual who having spare time then spend it whole day by means of watching television programs or just lying on the bed? Do you need something totally new? This Environmental Effects of Offshore Oil Production: The Buccaneer Gas and Oil Field Study (Marine Science) can be the response, oh how comes? A book you know. You are consequently out of date, spending your free time by reading in this brand-new era is common not a geek activity. So what these publications have than the others?
