The Woodland Way: A Permaculture Approach to Sustainable Woodland Management

Ben Law

The Woodland Way: A Permaculture Approach to Sustainable Woodland Management Ben Law

Ben Law is an experienced and innovative woodsman with a deep commitment to practical sustainability. Here he presents a radical alternative to conventional woodland management that creates biodiverse, healthy environments, yields a great variety of value-added products, provides a secure livelihood for woodland workers and farmers, and benefits the local community. The author views the separation of agriculture from silviculture as unnecessarily limiting and argues for a new approach to planning that will encourage the creation of sustainably managed woodlands for the benefit of people, the local environment, and the global climate. Although specific to Britain, the principles of *The Woodland Way* will be understood by foresters worldwide.

This brilliant book covers every aspect of woodland stewardship from both a practical and philosophical standpoint. Ben Law writes from the heart after long years of struggle with a whole host of naysayers who tried to convince him by fair means and foul to give up his vision for a renaissance in the countryside.
