Charles Osborne

**The Complete Operas Of Richard Wagner (The Complete Opera Series)** Charles Osborne  
Wagner's operas can be counted among the most important works of art of the nineteenth century. But Wagner was a composer around whom violent artistic, political, and literary controversies raged during his lifetime. Even today, Wagner's music seems to arouse either adulation or antipathy. In *The Complete Operas of Richard Wagner*, as in the first four volumes of his famous series on the great opera composers, Charles Osborne first describes the composer's life at the time he wrote each opera, thus providing a biographical thread which runs through the book; follows it with a thorough examination of the libretto and its sources; and lastly tells the story of the opera, which he links to the major musical features. This book is, in effect, a musical biography of Wagner, tracing his development from his first complete opera, *Die Feen*, to his last, *Parsifal*. It serves as an invaluable guide to the often perplexing Wagner oeuvre both for the regular opera-goer and the armchair listener.
