## **Building in Value: Pre-Design Issues** Rick Best, Gerard de Valence

The concept of value in projects is a key issue for everyone involved in the construction industry. Building in Value brings together many experts in the field to outline the wide range of tools, techniques and procedures that can and should be used to make the building procurement phase as efficient as possible. The authors go on to discuss how to ensure that future problems in the design and construction of the buildings are anticipated at the start and to minimise the likelihood of future hiccups. Integrating strategic, financial and construction management techniques, this book provides an essential guide for construction professionals.
