Statistical Matching: Theory and Practice Marcello D'Orazio, Marco Di Zio, Mauro Scanu

There is more statistical data produced in today's modern society than ever before. This data is analysed and cross-referenced for innumerable reasons. However, many data sets have no shared element and are harder to combine and therefore obtain any meaningful inference from. Statistical matching allows just that; it is the art of combining information from different sources (particularly sample surveys) that contain no common unit. In response to modern influxes of data, it is an area of rapidly growing interest and complexity.

Statistical Matching: Theory and Practice introduces the basics of statistical matching, before going on to offer a detailed, up-to-date overview of the methods used and an examination of their practical applications.

- Presents a unified framework for both theoretical and practical aspects of statistical matching.
- Provides a detailed description covering all the steps needed to perform statistical matching.
- Contains a critical overview of the available statistical matching methods.
- Discusses all the major issues in detail, such as the Conditional Independence Assumption and the assessment of uncertainty.
- Includes numerous examples and applications, enabling the reader to apply the methods in their own work.
- Features an appendix detailing algorithms written in the R language.

Statistical Matching: Theory and Practice presents a comprehensive exploration of an increasingly important area. Ideal for researchers in national statistics institutes and applied statisticians, it will also prove to be an invaluable text for scientists and researchers from all disciplines engaged in the multivariate analysis of data collected from different sources.

From reader reviews:

Margie Sutton:

This Statistical Matching: Theory and Practice book is just not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book will be information inside this guide incredible fresh, you will get data which is getting deeper you actually read a lot of information you will get. This kind of Statistical Matching: Theory and Practice without we recognize teach the one who looking at it become critical in thinking and analyzing. Don't possibly be worry Statistical Matching: Theory and Practice can bring when you are and not make your handbag space or bookshelves' grow to be full because you can have it with your lovely laptop even mobile phone. This Statistical Matching: Theory and Practice having excellent arrangement in word and layout, so you will not sense uninterested in reading.

Michael Greene:

The book with title Statistical Matching: Theory and Practice possesses a lot of information that you can find out it. You can get a lot of profit after read this book. That book exist new knowledge the information that exist in this e-book represented the condition of the world at this point. That is important to you to know how the improvement of the world. This particular book will bring you with new era of the internationalization. You can read the e-book on the smart phone, so you can read the idea anywhere you want.

Donna Young:

In this particular era which is the greater particular person or who has ability in doing something more are more treasured than other. Do you want to become considered one of it? It is just simple strategy to have that. What you must do is just spending your time almost no but quite enough to enjoy a look at some books. On the list of books in the top record in your reading list is Statistical Matching: Theory and Practice. This book that is qualified as The Hungry Mountains can get you closer in becoming precious person. By looking upward and review this e-book you can get many advantages.

Kay Newberry:

As we know that book is essential thing to add our understanding for everything. By a reserve we can know everything we really wish for. A book is a set of written, printed, illustrated or even blank sheet. Every year ended up being exactly added. This reserve Statistical Matching: Theory and Practice was filled regarding science. Spend your free time to add your knowledge about your science competence. Some people has different feel when they reading the book. If you know how big selling point of a book, you can really feel enjoy to read a reserve. In the modern era like currently, many ways to get book that you wanted.
