Exam Preparation for Firefighter I & II Christopher David Hawley, Andrea A. Walter, Marty Rutledge
Exam Preparation for Firefighter I & II offers aspiring firefighters the essential practice they need to successfully pass any certification exam. Based on Bloom's Taxonomy, the book guides the learner through various phases of testing, beginning with comprehension questions, application and analysis, and then following up with evaluation questions. Each phase includes three, 100-question exams to allow learners to practice answering questions at each level, as well as target areas needed for further study. The answers are provided following each exam, and each question is accompanied by references to the Firefighter's Handbook, 2nd Edition, the NFPA Standard 1001, 2002 Edition, as well as insightful rationale that encourages self-study. A final exam consisting of 200 questions of the various types, is also included at the end of the book, once learners have mastered the previous levels.
