Learning the Secret Language of Cats: A Vet's Translation Dr. Carol Teed

Exploring the mind of the cat, Dr. Teed describes what can be learned from understanding this most mysterious of creatures. She explores the body-mind-soul connection and notes that what feeds the mind and soul is often deficient in the modern world we have constructed for ourselves and our cats. These deficiencies then become written on the body. She feels a more integrated body-mind-soul approach to care for our felines is what is needed now for the modern cat. Describing cats as motivational or inspirational speakers who can teach us how to live a life worth living, Dr. Teed relates how she observed first-hand, time and time again, the positive power of the cat to affect change in small spheres. And she reflects on what an amazing thing it would be if we were all a bit more cat-like. In her words, every household can benefit from a cat.
