In this **Third Edition** of **Counselling Survivors of Childhood Sexual Abuse**, Claire Burke Draucker and Donna S Martsof identify the significant healing processes which are essential to achieve recovery.

These include:

" disclosing the abuse

" reinterpreting it from an adult perspective

" addressing issues related to the context of the abuse; and

" making desired life changes.

Each of these processes is discussed in conjunction with the most effective counselling interventions to facilitate resolution. Carefully chosen case examples demonstrate the appropriate use of interventions in practice.

The **Third Edition** includes a wealth of new material covering memory retrieval, outcome research, multicultural counselling, emerging therapeutic approaches, and neuroscience and counseling. Dynamics and difficulties in the therapeutic relationship are also discussed in great depth.
