- Explains Medicare standards; patient examples accompany this section so that users fully understand the expectations and have a sample to follow in their own practice.
- Provides instructions for the step-by-step completion of a HCFA-485 form to help users easily and completely fill out these often complicated forms.
- Explains the admissions and referral processes in home care, so users learn the proper procedures to follow and necessary forms to complete.

- Emphasizes outcome-focused care throughout the text, so users learn to set appropriate patient goals, create a plan to achieve these goals, and effectively fulfill the goals.
- Explains important safety considerations in home care (e.g., disposal of sharps, driving safety).
- Describes roles of each member of the home health team, so multidisciplinary teams can function more effectively.
- Provides a glossary with key words and definitions with which home care providers should be familiar.
