Killing patients in the ICU became a thrill for **Dale, RN** until his equally prolific murdering mother, **Isabel**, started feeling threatened by his new girlfriend while working in the same hospital. *Will mothers love trump the new love in his life?* Dale, a young male **Registered Nurse** accidentally kills a patient in the Intensive Care Unit. When he suffers no consequence he soon finds that he is falling in love with killing patients. As his confidence develops he begins to develop a relationship with the new Respiratory Therapist on the unit. His mother, Isabel feels threatened with losing her boy and Dale finds he must now contend with the equally prolific killing abilities of his over protective mother who works right alongside him. **taRNished** is a *medical thriller* that takes you on a journey of **innocence, murder, sex, and domination** which invokes the question in the readers mind while being entertained, “*how do I get out of the hospital alive?*” Author **Willie Stewart** is a critical care Registered Nurse with **13 plus years of nursing experience** who believes that an overburdened, understaffed nursing work force will lend itself to more and more abuses with the advent of **Obamacare** which is adding tens of millions more patients into the healthcare system. The subject matter of the *medical thriller taRNished* is timely and will be for the next few years for the following reasons:

- The Registered Nurse work force is aging out with **average age 45**
- There is a **prolonged nursing shortage** and there are not enough nursing instructors
- The baby boomers are all retiring and getting older and entering the hospital in **more critical condition**
- **OBAMACARE** will add an additional **22 million** newly insured people to an already overburdened healthcare system
- If the debate over pathway to citizenship is successful, **11 million** more undocumented workers will be adding to this burden on the fragile American healthcare system

Real killers like *healthcare villain* Kermit Gosnell MD, *serial killer* Charles Cullen RN, and more have thrived in the previous system. People like them and **Dale, RN** from the blockbuster novel taRNished will find it much easier to thrive in the coming years.
