## **The One Device: The Secret History of the iPhone** Brian Merchant

We know the iPhone as the device that transformed our world, changing everything from how we talk to each other and do business, to how we exercise, travel, shop, and watch TV. But packed within its slim profile is the fascinating, untold story of scientific, technological, and business breakthroughs--global in scope, sometimes centuries in the making, and coming from vastly different disciplines--that enabled Apple to create the most profitable product in history.

For all the time we spend swiping, tapping, and staring at iPhones, you think there would be few things we didn't know about these gadgets. But think again.

*The One Device* is a Magic School Bus trip inside the iPhone--traveling into its guts, peeling back its layers, and launching explorations that take us to the driest place on earth and a Mongolian lake of toxic sludge, down the Silk Road, into 19<sup>th</sup> century photography, and all the way back to Cupertino, California, where members of the original design team reflect on the earth-shattering work they did.

As multifaceted as the invention it follows, *The One Device* is a roving, wide-lens approach to tech history that engages the imagination as it explores the marvel of engineering that millions of us use each day.

### **From reader reviews:**

#### **Nancy Sobel:**

Book is actually written, printed, or illustrated for everything. You can realize everything you want by a reserve. Book has a different type. As you may know that book is important point to bring us around the world. Alongside that you can your reading talent was fluently. A publication The One Device: The Secret History of the iPhone will make you to become smarter. You can feel more confidence if you can know about everything. But some of you think which open or reading the book make you bored. It's not make you fun. Why they may be thought like that? Have you trying to find best book or appropriate book with you?

#### **Shannon Thompson:**

Book is to be different for every grade. Book for children until eventually adult are different content. As we know that book is very important usually. The book The One Device: The Secret History of the iPhone had been making you to know about other understanding and of course you can take more information. It doesn't matter what advantages for you. The book The One Device: The Secret History of the iPhone is not only giving you considerably more new information but also to be your friend when you sense bored. You can spend your personal spend time to read your publication. Try to make relationship while using book The One Device: The Secret History of the iPhone. You never really feel lose out for everything if you read some books.

#### **Ricky Bodkin:**

Reading a book for being new life style in this season; every people loves to examine a book. When you examine a book you can get a great deal of benefit. When you read guides, you can improve your knowledge, because book has a lot of information upon it. The information that you will get depend on what forms of book that you have read. If you want to get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, these us novel, comics, and soon. The The One Device: The Secret History of the iPhone will give you new experience in looking at a book.

#### **Mark Smith:**

As a scholar exactly feel bored for you to reading. If their teacher questioned them to go to the library or to make summary for some e-book, they are complained. Just tiny students that has reading's heart or real their passion. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that examining is not important, boring along with can't see colorful pics on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this The One Device: The Secret History of the iPhone can make you really feel more interested to read.
