Differential Item Functioning

Differential Item Functioning

Test fairness is a moral imperative for both the makers and the users of tests. This book focuses on methods for detecting test items that function differently for different groups of examinees and on using this information to improve tests. Of interest to all testing and measurement specialists, it examines modern techniques used routinely to insure test fairness. Three of these relevant to the book's contents are:

- * detailed reviews of test items by subject matter experts and members of the major subgroups in society (gender, ethnic, and linguistic) that will be represented in the examinee population
- * comparisons of the predictive validity of the test done separately for each one of the major subgroups of examinees
- * extensive statistical analyses of the relative performance of major subgroups of examinees on individual test items.

From reader reviews:

Timothy King:

What do you think about book? It is just for students as they are still students or the item for all people in the world, the particular best subject for that? Just you can be answered for that problem above. Every person has diverse personality and hobby per other. Don't to be compelled someone or something that they don't want do that. You must know how great and also important the book Differential Item Functioning. All type of book would you see on many solutions. You can look for the internet methods or other social media.

Raymond Garza:

As people who live in the modest era should be update about what going on or information even knowledge to make these keep up with the era which is always change and move ahead. Some of you maybe will update themselves by studying books. It is a good choice to suit your needs but the problems coming to you actually is you don't know which one you should start with. This Differential Item Functioning is our recommendation to make you keep up with the world. Why, as this book serves what you want and wish in this era.

Robert Arnett:

Playing with family within a park, coming to see the ocean world or hanging out with buddies is thing that usually you will have done when you have spare time, after that why you don't try thing that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Differential Item Functioning, you are able to enjoy both. It is great combination right, you still wish to miss it? What kind of hangout type is it? Oh occur its mind hangout people. What? Still don't buy it, oh come on its named reading friends.

Dolores Crook:

Reading a guide make you to get more knowledge from this. You can take knowledge and information from the book. Book is created or printed or descriptive from each source that will filled update of news. With this modern era like today, many ways to get information are available for a person. From media social including newspaper, magazines, science guide, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you ready to spend your spare time to open your book? Or just looking for the Differential Item Functioning when you essential it?
