Ceramic Membranes: New Opportunities and Practical Applications

Vitaly Gitis, Gadi Rothenberg

Ceramic Membranes: New Opportunities and Practical Applications Vitaly Gitis, Gadi Rothenberg

This textbook gives a clear and coherent overview of ceramic membranes, from preparation methods all the way to applications and economics. The authors, who are known for their clear writing style, combine their expertise in environmental engineering and porous materials to cover a wide range of examples, with over 1000 references. Chapters 1, 2 and 3 give a detailed introduction to membrane synthesis, transport mechanisms, and characterisation. Building on this, Chapter 4 outlines the state-of-the-art in ceramic membrane applications, including fuel cells, water purification, gas separation, and the making of cheeses, fruit juice, wine and beer. The final chapter deals with the economics of ceramic membrane processes, using industrial case studies to examine market barriers and opportunities.

Ceramics are known throughout history, but now, after thousands of years, they're making a comeback. Indeed, they may hold the key for addressing three of today's biggest challenges: clean energy, drinking water and air pollution. This book is a must-have for anyone who wants to enter the ceramic membranes field, or keep up-to-date with the latest developments and applications.

From reader reviews:

Ashley Parra:

Have you spare time for any day? What do you do when you have more or little spare time? That's why, you can choose the suitable activity intended for spend your time. Any person spent their spare time to take a walk, shopping, or went to the actual Mall. How about open or even read a book allowed Ceramic Membranes: New Opportunities and Practical Applications? Maybe it is to be best activity for you. You already know beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with their opinion or you have various other opinion?

Jesse Kennedy:

What do you concerning book? It is not important along? Or just adding material when you need something to explain what the one you have problem? How about your free time? Or are you busy person? If you don't have spare time to complete others business, it is make you feel bored faster. And you have free time? What did you do? All people has many questions above. They have to answer that question because just their can do in which. It said that about publication. Book is familiar on every person. Yes, it is correct. Because start from on guardería until university need this Ceramic Membranes: New Opportunities and Practical Applications to read.

Hazel Fletcher:

Information is provisions for people to get better life, information today can get by anyone at everywhere. The information can be a expertise or any news even an issue. What people must be consider whenever those information which is in the former life are challenging to be find than now's taking seriously which one is appropriate to believe or which one the actual resource are convinced. If you receive the unstable resource then you understand it as your main information there will be huge disadvantage for you. All those possibilities will not happen within you if you take Ceramic Membranes: New Opportunities and Practical Applications as your daily resource information.

Eric Saunders:

As we know that book is essential thing to add our expertise for everything. By a book we can know everything we really wish for. A book is a set of written, printed, illustrated as well as blank sheet. Every year was exactly added. This reserve Ceramic Membranes: New Opportunities and Practical Applications was filled with regards to science. Spend your time to add your knowledge about your technology competence. Some people has various feel when they reading a new book. If you know how big good thing about a book, you can sense enjoy to read a book. In the modern era like now, many ways to get book you wanted.
